

We are learning to multiply, divide and measure length and perimeter.

At Sandhurst School we follow White Rose Maths. It is a practical based program that allows children to explore maths through the use of equipment and gain a deeper understanding through reasoning and problem solving.

For more information please visit <https://whiterosemaths.com/for-parents/>.

In maths we will be:

- Multiplying 2 digits by 1 digit (with and without exchange)
- Divide 2 digits by 1 digit (with and without remainders)
 - Reasoning about multiplication
 - Linking multiplication and division
 - Scaling
 - Measuring lengths (in ms, cms and mms)

Some equipment and images your child will be using are:

Mathematical talk

Can you share the number equally? What is the inverse of multiplication? How many groups are there? What would happen if you couldn't share the number equally? How much longer?

Key vocabulary: part whole, divide, share, equal, number line, array, inverse, length, metre, centimetre, millimetre, measure, calculate

Maths strategies

Eva works out $34 \div 4$

	30	4
20		
8		

Maths Passports

Your child will also be working on their targets in their Maths Passport
